

"THE EMERGENCY POWER SYSTEM SPECIALISTS"

Emergency Systems **Service Company**

The New Name in Power Generation!

EMERGENCY SYSTEMS SERVICE COMPANY, the Authorized Distributor for **KATOLIGHT Corporation** Generator Sets is proud to announce that the Tognum Group has named us as an Authorized, Full-Line Distributor for **MTU onsite energy!**

The Tognum Group is one of the world's leading providers of distributed energy systems, injection systems, and drive shafts, as well as diesel engines (MTU) and complete drive systems.

In April 2007, Tognum purchased KATOLIGHT Corporation as the North American producer of generator sets with access to the well-established and single-focused KATOLIGHT Distribution Network.

In September 2008, the Tognum Group bundled the separate brands for distributed energy systems – MTU Detroit Diesel Power Generation, KATOLIGHT Corporation, MDE (Gas-Powered Onsite Generator Sets) and CFC Solutions GmbH (Stationary Fuel Cells) into a single, unified network of over 40 distributors designed to meet the unique power generation needs of the North American market. In the process they created the new global brand – **MTU onsite energy.**

Although the Katolight brand and name changes are effective immediately, rest assured our staff and our customer-oriented sales, service, support and exemplary response will remain the same!

Our Sales Department will continue to provide factory direct pricing and engineering technical assistance and support on the COMPLETE product line – Generator Sets, Diesel-Fueled from 20 kW to 3.25 MW and Gas-Fueled from 25 kW to 400 kW in the Tri-State Area (Eastern Pennsylvania, Southern and Central New Jersey and Northern Delaware)!

In addition to the **MTU onsite energy** line, our Service Department offers comprehensive service on **Select** manufacturers, with 24-hour Emergency Service available. We can also provide Planned Maintenance Contracts with a complement of Preventative and Predictive Maintenance Services.

With a fleet of Mobile Generator Sets and Automatic Transfer Switches, our Rental Department can provide for all your temporary or prime power needs. Again with 24-hour Emergency Service available if needed.

Attached is our Company profile. If you have any questions or concerns, please do not hesitate to call and speak with anyone in our Sales Department.

We would like to personally thank you for your past business, as we look forward to providing our services in the future and hope that you will continue to call us for ALL of your Power Generation needs.

Sincerely,

Joseph M. Hafich and Robert R. Hafich
